

# Join us for a **Spring Walk** exploring our local green spaces!

On **Sunday 23 April**, we'll be embarking on a circular walk starting and ending at **Hilldrop Community Centre** to celebrate the green spaces of Islington!

Our volunteer gardeners at Hilldrop have been developing our own green oasis in a former car park outside the centre as part of **Greening the Grey**, a project to develop more enjoyable open-air spaces for the community. With help from some amazing funders we were able to get the project up and running in 2022.

We now have the **Hilldrop Wildlife Garden** to share with residents. But we do need donations to continue the work on planting and aftercare.

Spring is here and on Sunday 23<sup>rd</sup> April, we will set off at 11.00 to walk 5K exploring green spaces around **Hilldrop Community Centre**.
